## System Application Conditions – All Gas Instruments

Type of Fluid	
Minimum System Operating Pressure	
Maximum System Operating Pressure	
Minimum System Operating Back Pressure	
Maximum System Operating Back Pressure	
Minimum Fluid Operating Temperature	
Maximum Fluid Operating Temperature	
Analog Output (0-5 VDC or 4-20 mA) – Pick One	
Digital Input Required?	
Analog Input Required? (Standard on Controller Models)	
Relay Output Required?	
What Alarms	
Over Pressure – What Setpoint?	
No flow – What Setpoint?	
Flow Rate Minimum	
Flow Rate Maximum	
Description of Application	

**Specify Wetted Material:** • PVC • CPVC • Other \_\_\_\_\_

**Specify O-ring Material:** • EPDM • Viton • Other \_\_\_\_\_
